Dr. Gordon Neufeld has over thirty years of experience working with children and those who parent and teach them. He has a widespread reputation for being able to make sense of complex problems and open doors for change. His professional experience is seasoned by being a father of five and a grandfather as well. His insights are in demand by professionals and parents across the country. Dr. Neufeld is nationally recognized for his work on aggression and violence among children and appears regularly on radio and television. For more information about him, his book or this event, consult his website: www.GordonNeufeld.com

Books will be available for purchase and opportunity will be provided for signing.
